

HOW TO USE THIS GUIDE

Tow ratings for all vehicle manufacturers are listed in alphabetical order and are organized by model type and configuration. In many instances, you will find a letter, or a letter and a number, identifying the equipment each rating is based on (i.e. automatic or manual transmission, gear ratio and required package). You will find the meaning for each of these, as well as abbreviations, in the Key to Charts. If there is no letter after the rating, that means there is only one rating available. Likewise, you may find the word "All" in the engine column; that means all available engines are capable of that particular tow rating.

Because each manufacturer lists its vehicles differently, we have found it necessary over the years to make changes to keep this guide consistent and concise. This year, the biggest change is with regard to Ford's F-Series ratings — in particular, the Super Duty models. Not only are all models separated by conventional and fifth-wheel categories, Ford has added weight-carrying/weight-distributing numbers

that relate to both available equipment and gross combined weight rating (GCWR). So this year, we've added footnotes that reference what GCWR a particular Super Duty weight rating is tied to. And because there simply isn't room to list every possible option and exception to a given number, we've listed the highest available number in each instance. In most cases, the difference is within 100 pounds, which isn't significant to RVers, anyway. If in doubt, consult Ford's online *2017 RV & Trailer Towing Guide*, which lists these differences in detail.

Where applicable, we've included relevant manufacturer's notes for a particular vehicle or model line, but always check with your dealer for details on the model you plan to purchase, including tow rating, payload capacity, GCWR, gross vehicle weight rating (GVWR) and gross axle weight rating (GAWR). Conducting your own research and double-checking the spec sheet are the best ways to make sure you're getting the right vehicle for your particular needs.

2017 TOW RATINGS

2008 CC LB (SFM) 2400	6.0L V-8 4 TO	15,000/15,000 (1)
2008 CC LB (SFM) 2400	6.0L V-8 4 TO	13,700 (A)

-----------------------------	-------------	----------------------

*Includes 17- and/or 18-inch wheels/tires. Higher of the two ratings shown, where applicable. Manufacturer's note: SuperCrew shortbed trucks will accept a fifth-wheel hitch, but current fifth-wheel designs are not compatible with this model.

F-150 ratings may vary slightly depending on wheel and tire package, GCWR and other factors. Certain powertrain/axle combinations may not be available in all states. Consult Ford's 2017 RV & Trailer Towing Guide or dealer for details.
